A Section of
ion Research
Founding Editor: F.H. Sobels

Aims and scope

MUTATION RESEARCH, Fundamental and Molecular Mechanisms of Mutagenesis publishes complete research papers in all areas of mutation research which focus on fundamental mechanisms underlying phenotypic and genotypic expression of genetic damage, molecular mechanisms of mutagenesis including the relationship between genetic damage and its manifestation as hereditary diseases and cancers. Additional 'special issues' which bring together research papers on specific themes of topical interest will also appear in this section.

Managing Editors

Dr. J. Ashby, ZENECA, Central Toxicology Laboratory, Alderley Park, Macclesfield, Cheshire SK10 4TJ, UK
Prof. J.M. Gentile, Biology Department, Hope College, Holland, MI 49423, USA
Prof. K. Sankaranarayanan, Department of Radiation Genetics and Chemical Mutagenesis, State University of Leiden, Sylvius Laboratories, Wassenaarseweg 72, P.O. Box 9503, 2300 RA Leiden, The Netherlands
Prof. B.W. Glickman, Director, Center for Environmental Health, Department of Biology, University of Victoria, P.O. Box 1700, Victoria, B.C., Canada V8W 2Y2

ELSEVIER

Amsterdam – Lausanne – New York – Oxford – Shannon – Tokyo

US mailing notice — Mutation Research, Fundamental and Molecular Mechanisms of Mutagenesis (ISSN 0027-5107) is published monthly, except semimonthly in January, April, July and October, by Elsevier Science B.V., (Molenwerf 1, P.O. Box 211, 1000 AE Amsterdam, The Netherlands). Annual subscription price in the U.S.A. US$1784.00 (valid in North, Central and South America only), including air speed delivery. Second class postage is paid at Jamaica, NY 11431.

USA POSTMASTERS: Send address changes to MUTATION RESEARCH, Publications Expediting, Inc., 200 Meacham Avenue, Elmont, NY 11003.

Airfreight and mailing in the U.S.A. by Publications Expediting.

Advertising Advertising orders and enquiries can be sent to the Advertising Manager, Elsevier Science B.V., Advertising Department, P.O. This journal is printed on acid-free paper.

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Because of the rapid advances in the medical sciences, the Publisher recommends that independent verification of diagnoses and drug dosages should be made.

Although all advertising material is expected to conform to ethical (medical) standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

Special regulations for authors. Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the Publisher. This transfer will ensure the widest possible dissemination of information.

Special regulations for readers in the U.S.A. This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per-copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. The appropriate fee should be forwarded with a copy of the first page of the article to the Copyright Clearance Center, Inc., 27 Congress Street, Salem, MA 01970 (U.S.A.). If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. The fee indicated on the first page of an article in this issue will apply retroactively to all articles published in the journal, regardless of the year of publication This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes, or for creating new collective works. Special written permission must be obtained from the Publisher for such copying.

Publication schedule for 1994

Mutation Research is published according to a volume numbering scheme that embraces all sections of the journal, in addition each section has its own colour code.

MUT (green), Fundamental and Molecular Mechanisms of Mutagenesis; MUTENV (blue), Environmental Mutagenesis and Related Subjects; MUTDNA (brown), DNA Repair; MUTAGI (red), DNAging: Genetic Instability and Aging; MUTREV (purple), Reviews in Genetic Toxicology; MUTGEN (pink), Genetic Toxicology; MUTLET (yellow), Mutation Research Letters.

1994	MUT	MUTENV	MUTDNA	MUTAGI	MUTREV	MUTGEN	MUTLET

+ INDEX *							

* Author and Subject Index for the year 1994 (covering all sections).

The following issues of MUTATION RESEARCH were published ahead of schedule in 1993, in order to reduce publication time. MUTGEN (pink), 319/1, Sep. 1993; 319/2, Oct. 1993; 319/3, Nov. 1993; 319/4, Dec. 1993. The issues remain part of the 1994 subscription year. We apologize for the inconvenience these changes in schedule may cause.

Subscription Information

Subscription orders can be entered only by calendar year (Jan.–Dec.) and should be sent to Elsevier Science B.V., Journal Department, P.O. Box 211, 1000 AE Amsterdam (The Netherlands), telephone 31.20.5803642, fax 31.20.5803598, or to your usual subscription agent.

Subscriptions are accepted on a prepaid basis only, unless different terms have been previously agreed upon. Subscription rates and conditions for Members are available upon request from the Publisher.

Postage and handling charges include surface delivery except to the following countries where air delivery via SAL (Surface Air Lift) mail is ensured: Argentina, Australia, Brazil, Canada, Hong Kong, India, Israel, Japan, Malaysia, Mexico, New Zealand, Pakistan, PR China, Singapore, South Africa, South Korea, Taiwan, Thailand, U.S.A.

For all other countries airmail rates are available upon request.

Claims for missing issues must be made within six months of our publication (mailing) date, otherwise such claims cannot be honoured free of charge.

This Journal has adopted the ADONIS System. Copies of individual articles can be printed out from CD-ROM on request. An explanatory leaflet can be obtained by writing to ADONIS b.v., P.O. Box 839, 1000 AV Amsterdam (The Netherlands).
